	Ref.: Supply of Multifunctional survey meters for the detection of RN materials
	Project title: "Post-detection equipment and training for Lisichansk unit of Luhansk border detachment, SBGS, Ukraine"

Corrigendum No. 1

Supply of multifunctional survey meters for
the detection of radioactive and nuclear materials
(dosimeter-radiometer)

26th November 2021
Bærums Verk, Norway

Corrigendum No.1

The following alteration is made to the Tender Documents:

Following the requests from prospective tenderers in view of COVID-19 pandemic that interferes with the timely delivery of parts needed for the production of Multifunctional survey meters for detection of RN materials, the Contracting Authority applies the right to extend the contract implementation period as follows:

**The time limits for delivery and personnel training is extended
from one hundred twenty (120) calendar days
to one hundred eighty (180) calendar days.**

This alteration shall be applied throughout all the volumes of tender documents.

All other requirements of the tender documents remain unchanged. The above alteration is an integral part of the tender documents.
